

A Hardworking 457(b)

Could Mean a More Comfortable Retirement

Saving for retirement from each paycheck is a good habit. If it happens automatically, it may be easy to forget your Deferred Comp (457 Plan) at John Hancock is there. We recommend a periodic review of your employer-sponsored retirement plan so you can make adjustments based on any changes in your goals or life.

Ask yourself these questions:

- Am I saving enough each month?
- What if I need to access the money?
- Should I contribute on a pretax or Roth basis?
- Do I have the right mix of investments?
- What should I do if I leave my employer?

Edward Jones can help you consider the answers to these questions. Let us help you give your Deferred Comp (457 Plan) at John Hancock the attention it deserves.

Call to schedule a time to talk about your Deferred Comp (457 Plan) at John Hancock..
